**RECOGNIZING** the need for enhancing conservation and sustainable use of fisheries and aquaculture resources through coherent policies as well as governance and institutional arrangements at national and regional levels,

**ACKNOWLEDGING** the potential of the aquaculture sector to generate wealth, social benefits and contribute to the development of the African economy, and the importance of fish and fish products in food and nutrition security and livelihoods;

**CONSIDERING** the need to harness the benefits of Africa’s fisheries and aquaculture endowments through development of value chains, accelerated trade and marketing

**EMPHASISING** recognizing the role of research and science in transforming fisheries and aquaculture production and productivity to exploit its full potential

**CONCERNED** over the limited value addition in fisheries and aquaculture coupled with the high level of post-harvest losses especially in small scales fisheries, and taking note of the absence of specific financial mechanism to support SMEs in fisheries and aquaculture.
