#### **1. Background**

The livestock sector has consistently played a major role in poverty reduction and food security and considered as one of the main contributors towards the attainment of the Millennium Development Goals (MDGs).

The African Union Pan African Veterinary Vaccine Centre (AU-PANVAC) is the AU technical Centre responsible for "promoting the availability of safe, effective and affordable veterinary vaccines in Africa.

In the implementation of its mandates, AU-PANVAC plays a critical role in the enhancement of quality of veterinary vaccines in Africa and their adequate utilization by producers in the field and in supporting national and regional diagnostic laboratories to access needed reagents and enhance their diagnostic capacities.

AU-PANVAC has been given additional responsibility by the African Union Head of States as Rinderpest Holding Facility. Accordingly, AU-PANVAC established the Pan African Continental Vaccines Bank for keeping Emergency Preparedness Rinderpest Vaccines. In line to this, AU-PANVAC have procured Two Million Doses of Rinderpest Vaccine and stored as emergency preparedness stock for distribution to AU Member State in case of any future outbreak. Furthermore, AU-

PANVAC has collected all essential biological reagents for the production of rinderpest vaccine from AU Member States laboratories and stored at its high security Bio-Safety Level 3 Laboratory which can also be provided to AU Member States Laboratories for production of the rinderpest vaccine when the need arises.

## **2. The Pan African Continental Vaccine Bank**

It is paramount important to recognize that the current structure of AU-PANVAC did not consider the additional responsibility of Rinderpest Holding Facility, thus there is a need to put place the required human resources for the operation of the Pan African Continental Vaccine Bank. Consequently, AU-PANVAC is intending to procure a service provider - Feeder and Cleaner - Laboratory Animals who can attend the laboratory animals maintained for the experimental activities of the Pan African Continental Vaccine Bank for the period of six months while the proposed structure of AU-PANVAC is in the process of reviewing by the concerned authority.

## **3. Objectives of the work**

The aim of the Pan African Continental Vaccine Bank is to hold emergency preparedness rinderpest vaccine stock for AU Member States.

## **4. Scope of the Work**
