

**Stocktaking:
Changes in African Agriculture resulting from the implementation of CAADP approaches**

Purpose: to assess the progress that your country is making and the challenges your country is facing in implementing your CAADP NAIP. Focus on the progress you have made since the convening of your country's high level Business Meeting that i) validated and endorsed investments and confirmed implementation readiness and ii) declared funding commitments and agreements on modalities and timelines to meet the funding needs of the country's investment plans.

Task: Review the post compact roadmap your country developed based on the results of the high level Business Meeting. Rank your progress in achieving changes in your country's agriculture situation that have resulted because of the implementation of CAADP approaches.

Consider

- The progress that has been made
- The major challenges you are facing in each area

Status Rankings

- No policies or programs have been put in place
- Policies and programs have been formulated but not implemented
- Policies and programs have been implemented and progress can be measured

CAADP Results Framework Implementation Measurements¹	Status		
1. How would you assess the progress you have made on increasing agriculture production and productivity?			
<p><u>Narrative:</u> Consider the improved and inclusive policy design and implementation capacity that your country has developed since the NAIP was signed. Assess the work you have done on developing policies and programs that have led to increased agriculture production and increased agriculture productivity.</p>			

¹ Based on the CAADP 2013-2023 Results Framework. The five elements are used to monitor changes in African Agriculture resulting from the implementation of CAADP approaches
