If you need to sneeze or cough, do so in your inner elbow or on a tissue paper.

If you have recently travelled AND you have fever, cough, or difficulty breathing, seek medical attention immediately.

Coronavirus infection can be transmitted through the eyes, nose or mouth; avoid touching your face and wash your hands regularly.

Wash your hands regularly with soap and water or alcohol-based hand rub to avoid transmitting disease-causing organisms.

Do not cough into the open air or into your hands.
