

Proposed Agenda for the 1st African Space Week

**General comment: To make it more participatory and effective for all AU member states we could consider AU and country level activities such as seminars on Outer space especially in Universities . However , each country could have liberty on how they want to mark the Space week, but we should be collaborative and have proper programming and reporting*

Schedule	Pre-event		Day 1	Day 2	Day 3	Day 4	Day 5
	Saturday	Sunday	Policy, Law and Regulatory	Governance, Partnership and funding mechanism	Synergy for an efficient African Outer Space Programmes development and implementation on services, and capacity building and utilization (Infrastructure and Human Capital development)	African Space Private sector: challenges and opportunities	Closing
